# 1 Logistics and Detailed Schedule

---

Southeast Asia HIV/Addiction Technology Transfer Center (SEA-HATTC) would like to welcome all participants to the Seminar on ICUDDR in Southeast Asia

## 1.1 Venue and Hotel Accommodations

The seminar will be held at Chiang Mai Orchid Hotel.

Chiang Mai Orchid Hotel is located on Huay Kaew Road in the Muang District of Chiang Mai Province. This property offers 266 rooms. All guest rooms provide a long list of modern amenities such as private balcony, air conditioning, hot and cold water, cable TV, minibar, telephone, toiletries and more. Besides the fully equipped rooms, the property also has a wide range of other services and facilities such as the swimming pool, restaurants, wireless internet, spa facility, fitness center, room service, meeting facilities and many other.

Rooms at the Chiang Mai Orchid Hotel, Chiang Mai, will be reserved for the nights of 15<sup>th</sup> and 16<sup>th</sup> May 2018, according to travel details received from participants. The costs of any additional expenses/hotel services such as extra nights, room services, etc. will be of your responsibility.

### **Airport transfer**

Airport to the Chiang Mai Orchid Hotel takes about 15-20 minutes up to an hour depending on the traffic. Hotel shuttles will be arranged for the participants' pick-up and drop off, based on the detailed arrival/departure flights and time provided to the hotel.

### **Contact person**

Dr. Orasa Kovindha

Mobile: +66 89 7651388 or Email: kovindha@yahoo.com

### **Hotel locations and maps**

#### **Chiangmai Orchid Hotel**

23 Huay Kaew Rd, Muang District, Chiang Mai Province

### Tuesday, May 15<sup>th</sup> Arrival

Participants arrive at the Chiang Mai International Airport and take the hotel shuttle to the Chiang Mai Orchid Hotel, check into the hotel rooms, have a free evening and dinner on your own

### Wednesday, May 16<sup>th</sup> Seminar

- 08.00-08.45 Registration
- 08.45-09.00 Opening
- 09.00-09.15 Introduction
- 09.15-09.45 What is DDR, ICUDDR and SEA HATTC
- 09.45-10.30 Briefing of existing work and resources from each university
- 10.30-11.00 Break
- 11.00-12.00 Break out session on  
'Potential strategies for collaborative efforts on DDR workforce development in each country'.
- 12.00-13.00 Lunch
- 13.00-14.15 Country report & Discussion
- 14.15-14.45 Break
- 14.45-15.30 Regional strategic alternatives
- 15.30-16.00 General discussion
- 16.00-16.30 Next steps
- 16.30 Close

### Departure

Have a safe pleasant trip back home

## 2 Seminar of ICUDDR in Southeast Asia

---

### Objectives:

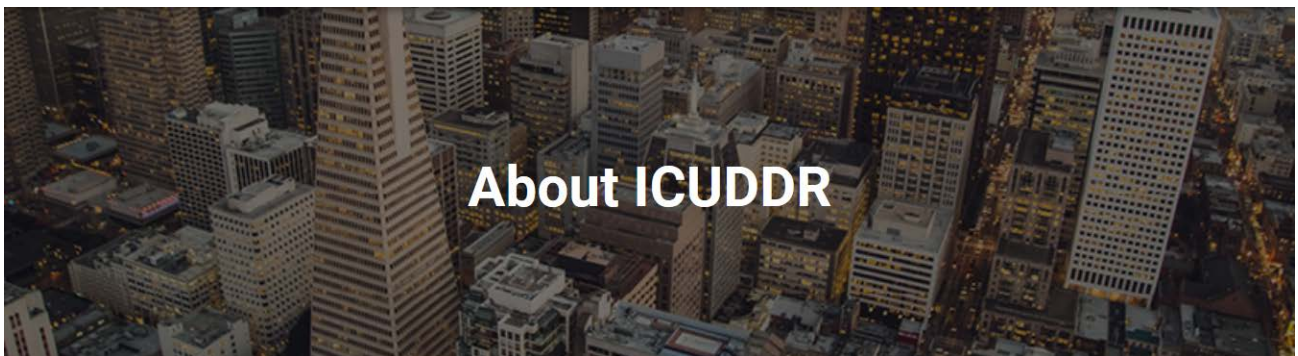

1. To share academic activities on DDR among universities in the region.
2. To introduce ICUDDR and SEA HATTC and their regional plans
3. To explore potential strategies for collaborative efforts on DDR workforce development in the region

### Meeting participants:

- A. Relevant workers on HIV and addiction services in Thailand, Laos, Myanmar, Cambodia and Indonesia
- B. Relevant policy makers, academia and high-level administrative persons from US/ international organization, Thailand, Laos, Myanmar, Cambodia and Indonesia

### Speaker: Dr. Igor Koutsenok, University of California San Diego, USA

A professor of psychiatry at the University of California San Diego, Director of the Center for Addiction Research, Training and Application, Director of the SAMHSA PEPFAR International Addiction Technology Transfer Center-Ukraine, and a co-director of the SAMHSA PEPFAR South East Asia Addiction Technology Transfer Center.

**‘International Consortium of Universities for Drug Demand Reduction’ or ICUDDR** is a global consortium of universities which offers graduate and postgraduate study programs specifically focusing on the transfer and adaptation of science-based knowledge regarding the prevention and treatment of substance use disorders. The Consortium provides a collaborative forum to support and share curricula and experiences in the teaching and training of this knowledge as well as to promote and encourage the recruitment of persons interested in the research, prevention and treatment of substance use disorders and public health.

The ICUDDR provides an opportunity for universities and institutions of higher learning to share their expertise as well as to support instructors/faculty, trainers, and students in their learning and adoption of the science of substance use disorders.

ICUDDR members have an opportunity to engage in the discussion and process of creating and implementing addiction studies programs. Members can access profiles of other university programs in addiction studies, and share information regarding course sequences, academic standards and requirements, and credentialing systems and international certificates for substance use professionals.

ICUDDR promotes and supports research and scientific activities among its members. As a global initiative, members of the Consortium are part of an international body which collaborates and maintains connections relationships with other international organizations supporting the expansion of science-based education, research, prevention and treatment of substance use disorders. These including the WHO, NIDA, UNODC, EMCDDA, ISAJE, ISSUP, SPR, EUSPR and the U.S. Department of State, Bureau of International Narcotics and Law Enforcement Affairs (INL).

## Main Goals

Network Development	Research	Education	University-Community Outreach
Develop a network of universities that are engaged in the design and implementation of academic curricula and programs in addiction prevention and treatment studies.	Advance applied research in addiction prevention and treatment.	Engage students and addiction professionals in academic programs of addiction studies and continuing education, promoting career opportunities in prevention and treatment	Enhance partnerships among university programs in addiction studies, addiction professionals, and the addiction science research and practice communities.

ICUDDR advocacy are (1) to provide advocacy within universities for the development of academic programs in addiction studies (2) to advocate for policy change to support the development of academic programs in addiction studies, and to enhance addiction prevention and treatment services and (3) to develop and advocate for guidelines and standards for academic programs in addiction studies.

ICUDDR supports the rapid improvement in competencies and skills among current and future generations of addiction professionals, to meet the increasing demand for prevention, treatment and public health services. Toward this end, the ICUDDR facilitates networking among universities to promote high quality education and training in the field of addiction prevention, treatment and public health interventions. It also pursues related applied addictions research, outreach and advocacy.
